Any brand of STS, any part you need.

able to source any part for any brand or model of STS crane in accordance with the manufacturer's recommendation and industry best practices.

Avoid major downtime.

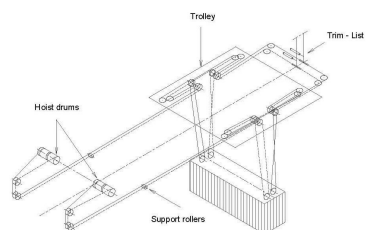

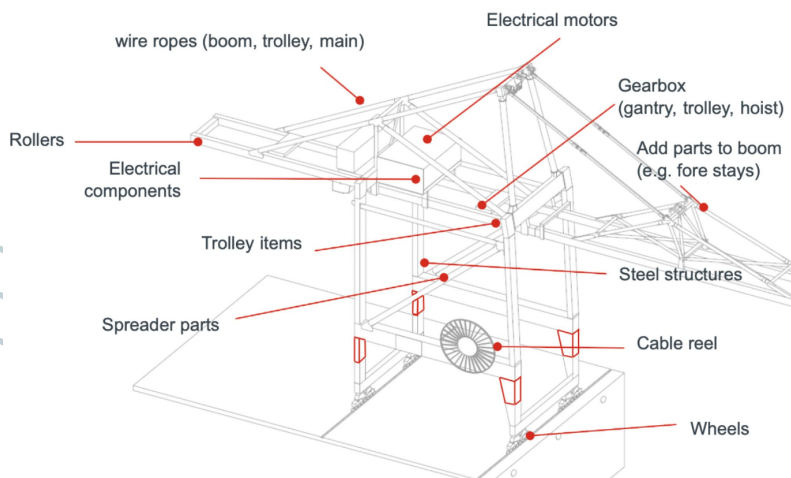

We would always recommend that you keep a stock of parts on hand for regular maintenance needs and consider always having a range of critical parts in stock to help minimize any operational downtime.

Access our network.

Finding the right parts for your STS crane isn't always easy, which is why we have built up a global network of trusted suppliers to make sure that the parts you need can always be sourced quickly for you: from electrical control parts, joysticks, sensors, switches and critical mechanical parts such as wheels, sheaves, twistlocks, motors, gearboxes and wire ropes for any brand of STS. Always speak to us first.

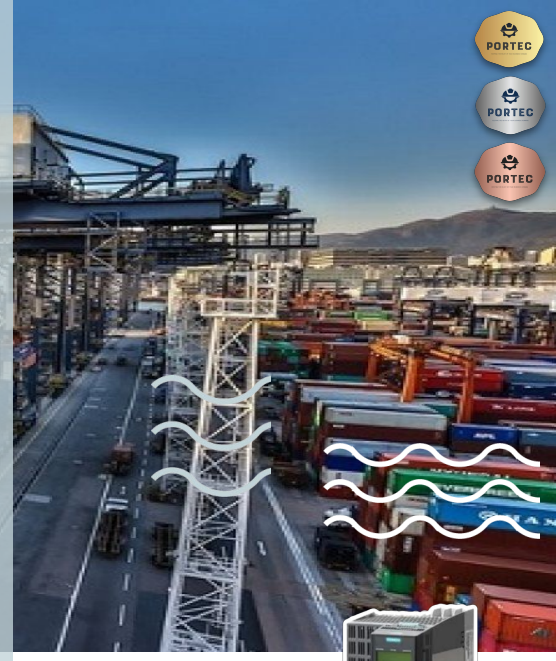

Choosing the right partner.

With our extensive global service and maintenance network, dedicated team of professionals and ability to secure the right part at the best price in a timely manner, we are your perfect partner to help source and manage all of your STS cranes parts, no matter what the brand is!

In today's fast-paced industrial environment, minimizing downtime and ensuring smooth operations is crucial. With our comprehensive solution for crane parts, you can avoid major disruptions by maintaining a stock of parts for regular maintenance and accessing our global network of trusted suppliers. As your reliable partner, we offer an extensive service network, dedicated professionals, and the expertise to source and manage all your crane parts, regardless of the brand, ensuring seamless operations and efficient maintenance processes.

“manufacturing, import and export, service and engineering”

Electric

- limit switches
- flexible crane cables
- medium voltage cables
- PLC (Programmable Logic Controller)
- radio remote control controllers
- relays and contacts
- tacho encoders over-speed protection
- lighting
- resistors

Cabin

- operator seat
- cabin
- joysticks

Drives

- drives
- electric motors
- hydraulics
- couplings
- motor reducer
- brakes
- brake motors
- gearboxes

Lifting

- grippers
- lifting beams
- spreaders
- hooks
